

Santosh Sharma

Strategic SAP Transformation Advisor | Solution Architect | SAP SuccessFactors | HR Digital Transformation

Frankfurt am Main, Germany | santsharma@outlook.com | linkedin.com/in/sharmasant

PROFESSIONAL SUMMARY

Customer-facing SAP transformation and solution architecture professional with extensive experience leading HR and enterprise-supporting transformation initiatives across global environments. Brings a strong track record in translating business priorities into target-state designs, governance models, rollout roadmaps, and scalable SAP solutions. Experienced in executive stakeholder engagement, process harmonization, fit-gap analysis, integration strategy, payroll and third-party connectivity, and multi-country delivery. Well positioned to support broader transformation conversations spanning business alignment, cloud transformation, SAP BTP awareness, SAP Business AI, change readiness, adoption, and long-term value realization.

PROFESSIONAL EXPERIENCE

Lead SAP SuccessFactors Consultant / Solution Architect

Strada | Jul 2024 - Present | Frankfurt, Germany

- Lead solution architecture, design governance, testing oversight, and delivery coordination for SAP SuccessFactors and HR transformation initiatives across global and multi-country environments.
- Partner with customers, delivery leadership, and account teams to shape solution direction, target-state design decisions, governance approaches, and scalable transformation roadmaps.
- Support implementation, rollout, upgrade, and advisory engagements across complex HR landscapes, balancing business priorities, standard SAP capabilities, integration needs, and adoption readiness.
- Contribute to strategic transformation discussions around process simplification, operating model alignment, risk reduction, cloud-enabled modernization, and sustainable adoption.

Lead SAP SuccessFactors Consultant / Solution Architect

Alight Solutions | Dec 2018 - Jul 2024 | Frankfurt, Germany

- Career progression continued through the organizational transition from NGA Human Resources to Alight Solutions, reflecting a continuous consulting journey.
- Led customer-facing consulting engagements focused on Employee Central, HR process digitalization, template-based transformation, and multi-country delivery across complex environments.
- Advised clients on solution design, business process alignment, implementation strategy, governance approaches, and scalable target-state operating models to support compliant operations.
- Supported discovery workshops, solutioning, estimation, design, testing, deployment, and stakeholder alignment across SAP and connected HR technology landscapes.

SAP SuccessFactors Consultant / Lead SAP SuccessFactors Consultant

NGA Human Resources, an Alight company | Jan 2017 - Apr 2021 | Hyderabad, India and Moerfelden-Walldorf, Germany

- Executed end-to-end SAP SuccessFactors Employee Central implementations from blueprinting through go-live, user enablement, and support across global delivery contexts.
- Translated business requirements into solution design, configuration objects, and best-practice aligned system setup.
- Managed data migration and integration activities spanning SAP SuccessFactors modules, payroll systems, and external applications, supporting scalable and connected HR landscapes.
- Supported PMO and delivery operations including governance, presales, demos, effort estimation, and cross-functional coordination.

Senior Consultant, SAP SuccessFactors

KPIT | Pune, India

- Facilitated discovery workshops and translated HR process requirements into SAP SuccessFactors solution designs and project plans.
- Delivered Employee Central, reporting, and integration solutions involving third-party payroll and legacy applications.
- Configured employee lifecycle, ESS/MSS, document generation, benefits, MDF extensions, time off, and timesheet capabilities.

Earlier Career in HR Operations, SAP HCM, and Payroll

Deloitte Support Services India, Aegis Ltd., and Mahindra Finance | India

- Built strong foundations in HR operations, SAP HCM, payroll, compensation, reporting, and regional HR service delivery, creating a practical business lens for later transformation roles.
- Managed employee lifecycle processes, workforce planning, compliance activities, and system-supported HR operations, strengthening the business grounding behind later advisory and solution architecture work.
